Your Own Telephone Answering Service

ANSWERS PHONE CALLS WHEN YOU'RE NOT IN! INGENIOUS — REMARKABLE — ANSWERS ON FIRST RING!

Myron's "answering machine" device is a 24 transistor-diode automatic telephone answering and message recording machine — at a price never possible till now! All it requires is that you dictate a message with which the phone will be answered whenever it rings. Dictating time is about 20 seconds, more than enough to announce that your voice is really a tape recording, and that the caller may leave a message of up to about 1-minute duration. A tone sounds at the end of your message, signaling that the machine is now ready to listen and record.

Myron's TELEPHONE VALET

Answers Your Phone

— anywhere, anytime. Whenever your phone rings, Myron's Telephone Valet answers in your voice, takes the message — gives the caller any message you wish. It's always on the job — never sleeps, never takes a coffee break, never misses a call.

OTHER USES, TOO — Your Telephone Valet never rests. When you don't need it to answer your phone, it serves as a handsome executive tape recorder — taking your dictation on handy cassette tapes. Or it can be used to play music in your home; background music in your place of business.

No installation required. Merely rest telephone handset on Special cradle — press button — and Myron's Telephone Valet is in operation.

New "Lifetime" Plastic File Folders in 4 Vivid Colors Make Filing As Easy As

Red, Blue, Green and Yellow

Myron's permanent file folders are torture-proof, yet colorful; strong, yet easy on the eyes — won't crack, won't soil. New Myro-Grain finish is static free, dust resistant, has no oily feel — and they look so smart. You'll want to convert your files immediately! They save money because they last practically forever. And papers remain as fresh as the day you just filed them!

The new-better way to file paperwork is Myron's "Color Code" Lifetime Plastic File Folders. They are rigid, reuseable and dress up your office, your desk or attache case. We supply Free pressure sensitive labels for subject identification with each box.

Use the colors — all 4 of them to categorize your files. You'll save at least 50% in filing time alone. And the files last so long you'll never replace them.
